FOREWORD

Dictionaries of Philippine languages are some of the most comprehensive available, and they have set a high standard for the lexicographer. Even so, grammars and dictionaries can never be complete, and neither is this dictionary of Yogad, which, in its present condition, represents continuing work in progress.

The purpose of these printings (the fourth) is to establish the general outline of the dictionary and to make available preliminary information on a language about which little has been published. The Introduction sets forth the principles which we have followed in organizing the data. The Introduction is followed by a Yogad — English portion and an English — Yogad finder list.

We wish to acknowledge the financial support of the Department of Linguistics, Rice University, the Dolores Welder Mitchell Trust, and the office of the Dean of Humanities, Rice University.
